

The Rosenön Award 30 000 SEK

Award for the best doctoral thesis of the year

The Section for Pharmacokinetics and Drug Metabolism within the Swedish Pharmaceutical Society announces, in collaboration with AstraZeneca, MetaSafe and Pharmetheus, an award of 30 000 SEK for the best doctoral thesis of the year defended at a Swedish university in the areas drug metabolism, pharmacokinetics and/or pharmacodynamics. Theses defended during the period June 21st, 2024 – June 20st, 2026 are qualified to compete for the award.

Welcome to apply by the latest June 21st, 2026.

The application including a motivation to why this thesis should be awarded (written by the applicant) and the complete thesis (summary and all separate papers, preferably in pdf format) should be sent at the latest June 21st, 2026 to Laura Andersson, Laura.Andersson@apotekarsocieteten.se.

The motivation should pointwise address the thesis with respect to novelty, scientific maturity, research collaborations and the applicability and scientific importance of the thesis. The provided template should be used for this purpose and can be found at <http://www.apotekarsocieteten.se/stipendier-och-priser/vara-priser/the-rosenon-award/>

More information in english is available at <https://www.apotekarsocieteten.se/en/scholarships-and-prizes/our-prizes/best-doctoral-thesis/>

For further information contact Thomas Dorlo, Thomas.Dorlo@uu.se.

Become a member of the Swedish Pharmaceutical Society and the Section for Pharmacokinetics and Drug Metabolism at apotekarsocieteten.se for only 500 SEK/year (students and PhD-students 100 SEK/year). Membership includes a regional division and a scientific section. As a member, you become part of a network of different competencies within the pharmaceutical field and can help influence development. As a member, you participate in our activities free of charge, have priority access to our scholarships and stay updated on what's happening via our newsletters.
